

Fiscal Year 2021 Annual Report

1 July 2021 - 30 June 2022

About IBI

The International Biochar Initiative (IBI) is a global platform for fostering stakeholder collaboration, good industry practices, and environmental and ethical standards to support biochar systems that are safe and economically viable.

Message from the IBI Board Chair

As the impacts of climate change grow stronger, humanity appears to be starting to embrace nature-based and technical solutions that can help bend the Keeling curve.

– Kathleen Draper

Event Spotlight:

In December 2021, IBI co-hosted a virtual three-day symposium focused on the "Business of Biochar." A total of 472 participants attended with registration income of \$45,000

and additional sponsorship income of \$8,500.

Day 1 focused on regional updates on both commercial and research activities.
Day 2 focused on the carbon markets and their impact on the biochar industry.
Day 3 focused on investor interest and activity in biochar.

Presented by:

Revenue

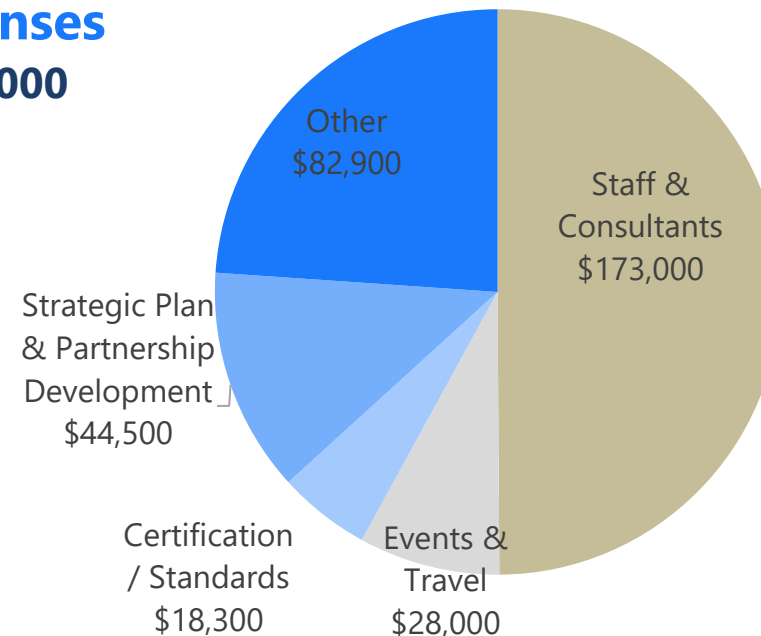

\$496,300

■ Non-Grant revenue ■ Woka Foundation
 ■ Membership * Woka funding received May 2021

Expenses

\$363,000

Key Achievements in FY 2021

FY21 Members = 511
+74% from 2020-2021
Membership Revenues
+50%

Launched Podcast -
Five episodes focused
on biochar
technologies

Six webinars
>1000 attendees

Started New Projects:
Global biochar activities map
Curated research database
Nationally Determined
Contribution biochar
framework

Looking Forward: Strategies

1. Ensure safe, sustainable biochar is produced, used and rewarded via carbon removal markets.
2. Increase biochar understanding, expertise & adoption.
3. Showcase successful, sustainable biochar production & research projects.
4. Increase IBI's financial and operational sustainability.
